Dear Cousin Edith

It was with pleasure I received your kind letter this wk. and this evening I had laid down my work to go to bed but thought if I did not answer your letter yet tonight that no telling when it would be done. My last letter was certainly stale when you received it. I was so sorry to learn of your sickness seemed as if you have more than your share of the ailments of this life

Suppose you like private
duty when it is the kind
you wrote me of. My it
almost made you think
for an hr. that you was
pomp of the land did it not?
Hope you will soon have
it easier.
We were out home this wk,
Ma has been out to Ottoville
and up to Cleveland but
I suppose you have heard
ere this. Ida has quit X
writing to me so I don't know
what ails her I think
she is great. wonder
if she has got above us?
Ma said Aunt Jane said
that folks says Ida's babe
is to smart to live at that
to bad. Yes Lillie was
here over a wk. and we
had a great old time.

One afternoon in particular we wished you could be here. We went a great deal while she was here, She said she knew of no girl she would rather see than Edith.

I like your dress very much am sorry I cannot send you my new dress I have not got any mine are made over ones,

Edith would not that paraid been grand if it had bee the Republicans; for my part I would about as soon see on as the others,

Oh how I wish you could spend Thanksgiving with us. We expect company for dinner to eat chicken pie and then at night I think we will give a social

to the young people. I baked
one cake for it today had
real good luck I think
Tomorrow is work day Sun,
G preaches three times
tomorrow. he has two miss-
ion points beside his
regular charges.
Last Mon, we were at Youngs-
town took dinner with
Rev. Anderson, my but we
had a stylish dinner
they live quite elaborate
Aunt Sade and Annie were X
at Fathers not long ago
Pa says he dont know of
any one who has improved
so much as Annie. He
says she carries a gold watch

and chain and smiles as sweet as you please.

Ethel woke up and I just fed her some bread and milk and have tucked her back in her bed, but she is singing a little song which means "I dont want to lie here" but I rock away and say nothing. She has been pulling herself up on her feet but does not yet walk. it keeps me busy since has got to creeping every where.

I am so sorry you cannot see her while she is a baby for I am fast realizing that I am loosing my baby

and getting a little girl.
How long it seems since
we have been together but
I trust in the good One
above that we may again
meet at no distant day.
and may he keep us safely
until then is my prayer.
How is Cousin Laura
do you think you will go
there?
Now write whenever you
can no difference how,
I can always read without
any trouble I assure
you
Will close
Good Night
Lovingly
Alice Pike
